## RANZCR Strategic Plan 2022-2024

The Australian Society of Medical Imaging and Radiation Therapy (ASMIRT) is the peak body representing medical radiation practitioners in Australia. Our aims are to promote, encourage, cultivate and maintain the highest principles of practice and proficiency of medical radiation science, always mindful that the welfare of the patient should be at the centre of everything we do.

ASMIRT would like to provide the following comments:

- This is a comprehensive document that addresses sound goals. Provision of detail around how the goals are to be achieved would strengthen the document.
- Consider the addition of an element that addresses the need to consult and work collaboratively with close professional stakeholders.
- Given the current consultation on the Action Plan for Māori, Aboriginal and Torres Strait Islander Health 2022-2024, perhaps the strategic plan can detail a separate priority focussing on Maori and Aboriginal and Torres Strait Islanders specifically.
