International Travel Scholarship

Assessment Matrix

International Travel Scholarship

The aim of the scholarship is to allow for personal and professional development of the practitioner and to encourage the practitioner upon their return to Australia to contribute to the professional body of knowledge. The rubric has been designed to assess content and quality of the applications.

Applications which do not include mandatory information will not be considered.

All applications should include:

- a current resume
- three written professional references

Applicants intending to present or attend an international conference **must** include:

- a letter of support from your employer,
- details of the conference to be attended and/or the intent to offer a paper for presentation,
- an outline of the conference program (where available),
- the rationale and benefits of the proposed use of the scholarship,

Applicants intending to attend an international training program **must** include:

- a certified copy of acceptance in a course/ training program(s)
- a certified copy of the outline(s) of the course/ training or study program(s)
- a proposed travel timetable including anticipated dates of departure and an anticipated date of return to Australia

Applicants intending to undertake a study tour or site visit(s) in conjunction with the proposed activity should include copies of letters of invitation for the hospital, department or University visits.

The scoring system serves as a framework in the determination of which applications demonstrate commitment to the profession, willingness to share knowledge widely, self-motivation and direction and the constant pursuit of excellence.
