Can I apply for the Clinical Pathways if I am a Radiographer who has undertaken a credentialed Academic and Clinical Course but never applied for my CCPM with ASMIRT?

If you have successfully completed a full academic and clinical program and never submitted, then YES, you are eligible to apply for your CCPM. There are 4 Clinical Pathways available.

Can I apply for the Clinical Pathways if I am a Radiographer performing Mammograms for over 5 yrs but I have never undertaken a credentialed Academic or Clinical Course?

No, in order to be eligible for these pathways, you must have undertaken and successfully completed a credentialed Academic and Clinical Course.

Can I apply for the Clinical Pathways if I am a Radiographer who has undertaken a credentialed Academic and Clinical Course and received my CCPM but have forgotten to renew it?

YES, you are eligible to renew your expired CCPM using one of the 4 Clinical Pathways available.

How much CPD do I need?

You must have a minimum of 3 yrs CPD related to Mammography (20 credits per year). These will have been obtained within the most recent three years.

Can I retrospectively review my Education files and use any Mammography CPD that I have obtained?

Yes, you can supply any CPD activity related to Mammography.

I fit into Clinical Pathway 2 (Applicant who is practicing Mammography but has no current CPD program) How much evidence of continuous practice in Mammography, do I need to supply?

You will need to demonstrate employment in a clinical mammography setting for at least one (1) year full-time or two (2) years part-time of the past three (3) years and produce evidence of clinical involvement in mammography for an average of 150 hours per year over the three-year period (average of ½ day/week).
How do I go about outlining the intended steps to be taken to bring CPD up to date within a 6 Month timeframe?

You will need to submit a CPD plan to MIAP2 detailing how you are going to obtain the required Mammography related CPD credits (60 credits) in the next 6 months.

How do I obtain Mammography related CPD credits?

There are many ways to obtain Mammography related CPD points by using the ASMIRT Web Page.

The Program continues to build on the sound educational principles that individuals learn best when the learner is motivated, and when the learning:

- is highly self-directed;
- is related to the learner’s identified needs;
- builds on existing knowledge and experience;
- encourages active participation;
- associates learning with current practice;
- involves reflection and evaluation of the learning

If my current supervisor does not hold a current CCPM, how many images to I have to supply?

A DVD / USB containing 25 sets of images will need to be submitted along with the renewal application for review by the MIAP2 Panel.

When do my submissions need to be finalized and submitted for review?

The Clinical Pathways are available starting 1st July 2018 for a period of 12 months. This clinical pathways option currently expires on 30th June 2019.
